

Nisarga Gondi

+1 (412) 641-0028 | ngondi@andrew.cmu.edu | LinkedIn | GitHub

EDUCATION

Master of Science in Artificial Intelligence Engineering - Information Security Carnegie Mellon University, Information Networking Institute - Pittsburgh, PA August 2025 - May 2027

Coursework: Intro to Info Sec, ML with Adversaries in Mind, Usable Privacy and Security, Introduction to Deep Learning

Bachelor of Engineering Visvesvaraya Technological University, B.M.S. College of Engineering - Bangalore, India December 2021 - June 2025

Relevant Coursework: ML, Cryptography, DBMS, Data Analysis, Computer Networks, Object-Oriented Java, Blockchain

SKILLS

Machine Learning: TensorFlow, PyTorch, Scikit-learn, ONNX, JAX, Feature Engineering, Optimization and deployment

Data Processing: Pandas, NumPy, Data Preprocessing, MLOps, Exploratory Data Analysis, Data Pipelines

Programming Languages: Python, Golang, Java, Kotlin, C++, SQL, JavaScript

Data Analytics & Visualization: Matplotlib, Seaborn, MySQL, PostgreSQL, MongoDB, Distributed Systems

DevOps: Docker, Git, GitLab CI/CD, Kafka, Kubernetes, Google Cloud Platform, AWS, Linux

EXPERIENCE

CyLab, Carnegie Mellon University

November 2025 - August 2026

Research Assistant / Summer Research Intern

Pittsburgh, PA

- Co-developed Self-Evolving Defense (SED): context-only LLM-agent hardening via episodic memory and synthesized security policies (no fine-tuning); benchmarked on AgentDojo, RedCode, HarmBench
- Prototyping offline ML inference for mobile SMS/MMS scam detection; built Quik (Kotlin) open-source app and Python preprocessing pipeline

Ericsson

March 2025 - July 2025

Software Development Engineer Intern

Bangalore, India

- Architected Quick Dimensioning Tool for 5G Observability & LCM deployments; configured 50+ profiles; Python CLI with JSON Schema + DLL profile selection cut sizing from hours to minutes

Samsung Prism

March 2024 - September 2024

Research and Development Intern

Bangalore, India

- Built Bixby Smart Notification Android app classifying 10,000+ notifications (Random Forest + NotificationListenerService); 93.15% accuracy; deployed via ONNX

Singularity - The Astronomical Society (BMSCE)

April 2022 - April 2024

Coordinator

Bangalore, India

- Led 500+ member society for 2 years; partnered with ISRO, ABAA, BAS; coordinated launch of BMSCE's first radio telescope with Jawaharlal Nehru Planetarium

ACADEMIC PROJECTS

OpenRole: AI Job Search Agent - CMU 14-789

LangGraph multi-agent system (FastAPI, Next.js) for role scouting and HITL outreach; 220+ tests; PostgreSQL + multi-provider LLM routing

JailVax: Provable LLM Jailbreak Defense - CMU 14-795

Adversarial self-play + Z3 formal verification for LLM jailbreak defense

Trip Master / Exoplanet ML - BMSCE

AI travel planner (Gemini + Android AR); Kepler exoplanet detection (+15% recall on 10k+ records)

Disaster Management UAV - Aerothon 2024, All India Rank 7

Autonomous UAV with computer vision and GPS-denied navigation for disaster reconnaissance
